

Raja Rogers Meeting Notes
5-23-06

Raja Rogers clarified an earlier instruction: If anyone on a RC or WPA, if they happen to have a deep experience, much deeper than normal, they can stay there until they innocently come out. They don't need to feel that they have to move on. This should be done in the context of a course, unless the person is a very experienced Governor or Sidha. If they are very experienced Governor or Sidha, they can do this at home. What we put our attention on, increases in our life. So if someone is having a profound experience of consciousness, their awareness is being absorbed in the field of consciousness.

During the Rajas' meeting with Maharishi today (Raja Rogers and Eike are working on designing a clinic and an apartment complex.):

Maharishi said, "Sound is therapy." He was talking about Vedic chanting, MVVT. Sound precipitates into matter. People should have their attn on what sound affects what part of the body. So diff chanting and diff Vedas have diff effects on the body.

Raja Rogers commented: Most people won't be refined enough to notice that this sound is affecting certain areas of the physiology. When we listen to our readings, Rig Veda, Sama Veda, Vishnu, Ganesh, then we should really listen to them in a very innocent way and we can be aware of what these sounds are doing in the physiology. The physiology is nothing other than a wave function. The importance of really listening to the readings after program – see where they are having an effect - listen to Sama Veda at night to soothe the various stresses of the body.

Maharishi asked, "Who operates the body?" "The devatas. They live there and they conduct everything." Wherever there's activity, there's sound associated with it, even on the finest level where existence is coming into being. All layers of sound get unified in the point value.

Raja Rogers commented: Just like you can feel the difference when you feel a gold coin as compared to a regular coin. The effect is still there whether you can feel it or not.

Just as you notice that when you become more refined, different sounds become uncomfortable, different foods become uncomfortable, you go with that which is more refined.

Enjoy the company of saints – Shankara talked about this. This underscores the importance of group program. It is not just to have a nice program, but also to be with others who are focused on evolution.

Q: Sama Veda? TM-Sidhi Administrators said to no longer listen to that. Rig Veda?

A: I'll check on that. But now, put the majority of time on Vishnu.

Raja Rogers said that when people ask, “When do you think this or that will happen in the movement?” he says, “Don’t think. Just be.”
